

Interior's Office of Policy Analysis Seminar
LANDFIRE - Foundational All-Lands Data Improving Decisions in Land Management

Panelists:

- Henry Bastian, Program Manager, DOI-OS Office of Wildland Fire
- Frank Fay, Program Manager, USDA FS Fire and Aviation Management
- Jim Smith, Project Manager, The Nature Conservancy
- Birgit Peterson, Geographer, USGS Earth Resources Observation and Science Center

Topic: LANDFIRE - Foundational All-Lands Data Improving Decisions in Land Management

Date: Monday, September 10, 2018

Time: 12:15 - 1:45 pm (Eastern)

Place: Rachel Carson Rm (Basement Cafeteria, Main Interior Bldg., 1849 C St., NW, Washington, DC 20240)

Webcast: www.doi.gov/events

Have you been stuck when working on a project and said, “If only we had the data”? Do you need wall-to-wall, landscape-scale, ecological/biological data? Have you heard about LANDFIRE, the DOI 2017 Environmental Achievement Award Dream Team winner, and thought, “That’s just a fire dataset”?

Please join the Office of Policy Analysis on September 10 for a panel that will share details and demonstrate that LANDFIRE offers wildland fire data, but it is much more than that. The panel will describe the interagency/interdepartmental approach to the product suite and innovations that are changing conservation, and will highlight a variety of applications of the spatial and non-spatial data. The presentation will illustrate its proven success and its potential to improve the efficiency and effectiveness of management decision-making across the United States.

To Livestream this event, please join 5-10 minutes early to avoid technical difficulties. Login is required to ask questions. Please click “join” or “login to chat” and follow instructions. Closed captioning will be available. The recorded event will be posted to the [Office of Policy Analysis](#) website.
